Re: CSIDC Annual Irrigation Field Day – book your tradeshow space today

On behalf of the Saskatchewan Irrigation Projects Association (SIPA) and our partners in the Canada-Saskatchewan Irrigation Diversification Centre (CSIDC), we are happy to invite you to this year's irrigation field day. It will be held on Thursday, July 12th at CSIDC in Outlook, SK. We expect over 400 attendees representing irrigators, agribusiness, government and the general public. It's a chance to see the latest in irrigation technology, variety and agronomic trials, new crops and more.

Theme

Adapting to a variable climate

Tradeshow

During the field day, it's not just about what happens at CSIDC. As in years past, we will have an outdoor tradeshow area under a festival tent to showcase organizations and businesses that are involved in and support agriculture. Space is free and is available on a first-come / first-served basis. So book today! [details on following page]

Door prizes

Measuring our impact depends on knowing who comes through the gate. Our best way to do that is to ask attendees to register at arrival in exchange for a chance at a door prize. In the past, your generosity by donating door prizes has made this effort a great success. We hope we can depend on your support again this year.

Donations

We are also seeking donations to cover the substantial costs of the field day (e.g. tent rental, lunch/refreshments, supplies, etc.). All donors will be acknowledged and are invited to provide a company sign to be placed along the field tour route. Cheques can be made out to SIPA and mailed to CSIDC.

If you have any questions about the field day or trade show, contact Erl Svendsen at 306-385-9377 or erl.svendsen@agr.gc.ca.

We look forward to seeing you on July 12th at CSIDC!

Sincerely,

Roger Pederson / Larry Lee
